ENG

COLLIO

Square-section self-supporting litter bin with base plate, flat plinth and lid in 5 mm thick sheet metal. The body with reinforced front door is made of 20/10 mm thick sheet steel and is fitted with a triangular key lock and a suitable slot for waste insertion. The litter bin can be supplied complete with galvanised sheet metal ashtray with central stainless steel disc for extinguishing cigarettes and internal containment drawer with emptying inside the bag by simple rotation operated by the operator after opening the door. The corten steel version has a special sandblasting and oxidation cycle while the steel version is galvanised and coated with thermosetting polyester powder.
All fixings are in AISI304 stainless steel.
Prepared with holes Ø 11 mm for ground fixing with mechanical mechanical dowels (not included).
