ENG

COROLLINO

Litter bin consisting of a cylindrical structure composed of vertical glat profiles made of 20x3 mm steel plate, shaped and welded to a ring Ø428 mm made of Ø 10 mm steel rod, strengthened by three other intermediate rings Ø 340 mm. The removable inner container is made of 8/10 mm thick galvanised sheet metal, with perforated bottom for rainwater drainage and anti-theft chain.
All metal parts are galvanised and coated with thermosetting polyester powder except for the inner container.
All fixings are in AISI304 stainless steel.
Prepared with holes 14x30 mm for ground fixing through mechanical dowels (not included).
