

Litter bin made of 4 mm thick sheet steel with integrated cover, equipped with a tilting container with snap fastening attached to a 70x40 mm tubular steel support. The container, made of 12/10 mm thick edged sheet steel with a 2 mm thick bottom, is available in the blind or expanded sheet steel version and is equipped with a round steel bag holder ring for functional replacement of the waste sack.
The litter bin is supplied with or without stainless steel ashtray, with sliding drawer movement for emptying, in the two sizes 60 and 100 litres. All metal parts are galvanised and coated with thermosetting polyester powder.
All fixings are in AISI304 stainless steel.
Prepared with holes Ø 11 mm for fixing to the ground with mechanical dowels (not included).
When placed in batteries, for separate collection, each bin can be customised with stickers or prints (only blind sheet steel version).
